Professional Summary

Full-Stack Developer with hands-on experience in Full-Stack web applications and **Shopify**. Proven ability to ship production-grade codes, collaborate with start-up teams, and independently build SaaS products, web apps, etc.

Education

Sikkim Manipal University, MCA, (online)	Jan 2025 – Dec 2026
Punit College, BCA, (Bhilwara, Rajasthan)	Sept 2021 – April 2024
B.Y.K. College Of Commerce, 12th Commerce, (Nashik, Maharashtra)	June 2018 – April 2020

Experience

Full-Stack Developer, Define Digitally – Remote   Nov 2023 – May 2025
- Developed full-stack web apps using Next.js, React.js, and Strapi as the headless CMS.
- Built and customized Shopify storefronts using Liquid, Metafields, Metaobjects, HTML, CSS, and JavaScript.

Web Developer Intern, Data Bolta Hai – Bhilwara, Rajasthan   May 2023 – Dec 2023
- Led a small development team to design, build, and launch 3 web sites for a service-based startup.
- Handled project planning, hosting setup, domain purchases, and database management.

.NET Developer Intern, SPMPL Tech – Bhilwara, Rajasthan   Nov 2022 - May 2023
- Contributed to 3+ web applications, working in both front-end and back-end using .NET C#, MVC, SQL, HTML, CSS, and JavaScript.

Projects

CollabyDraw   Github Link | Live Link
- CollabyDraw is a collaborative whiteboard tool with a hand-drawn look and feel, designed for secure real-time collaboration. It features end-to-end encryption to ensure that your conversations stay private and protected.
- Tools Used: NextJS, Typescript, Tailwind CSS, Websocket, Canvas, RoughJs

Enhance CV/Resume   Github Link | Live Link
- A resume builder with live preview, undo/redo, and drag-and-drop features to help users create resumes easily. Currently in the prototype stage.
- Tools Used: NextJs, Typescript, Tailwind CSS, Redux Toolkit

YouLayer   Github Link | Live Link
- Built a SaaS solution that simplifies video uploading and management for YouTubers, enabling secure collaboration with editors without giving full access to your YouTube account.
- Tools Used: React JS, Tailwind CSS, Node JS, Express JS, Context API, Mongo DB, Youtube Data Api

Dukaan Dashboard Clone   Github Link | Live Link
- Built a pixel-perfect clone of the Dukaan dashboard as part of an open challenge by Dukaan's CTO on X. Later had a Google Meet call with the CTO.
- Tools Used: React JS, Tailwind CSS, Recoil

Xolana   Github Link | Live Link
- Built a decentralized project on Solana for easy token creation, management, and transfers. Includes secure wallet integration, smooth onboarding, and support for token swaps and staking on the devnet.
- Tools Used: React JS, Tailwind CSS, Recoil, TypeScript, Node JS, Express JS, Websockets, Solana web3.js

Imaginate AI   Github Link | Live Link

- Built a free AI image generator tool which transform text prompts into images.
- Tools Used: Next JS, Tailwind CSS, TypeScript, Image Gen Api

Technologies

Languages: HTML, CSS, JavaScript, TypeScript, Liquid, SQL.

Frontend: React.js, Next.js, Tailwind CSS, Redux, Recoil, Context API, Framer motion

Backend: Node.js, Express, GraphQL (Basic), WebSockets

Databases: MongoDB, PostgreSQL

Version Control & Deployment Tools: GitHub, Docker

E-commerce Platforms: Shopify, Shopify Plus, Shopify Theme Customization
